

Pāhoa Promise

A community-wide collaboration between

- Health providers
- Family support services
- Early care and learning providers
- School leaders

Together, these leaders are working to strengthen access to the opportunities and programs that ensure long term child and family well-being.

The Vision

All keiki in Pāhoa reach Kindergarten healthy, safe, and ready to thrive

What does that mean?

- All children 0-5 are healthy and safe
- All families have access to high-quality early learning opportunities
- Young children's developmental concerns are identified early, and 'ohana receive the support they need

The Idea

In Pāhoa, early childhood health, social service, and early learning providers are working together to develop a coordinated continuum of supports for keiki, their 'ohana and, ultimately, the Pāhoa community. The Pāhoa Promise will provide a roadmap for those who work with and on behalf of our 'ohana and young keiki to ensure that all keiki in Pāhoa are healthy, safe, and thriving.
